

CITATION REPORT

List of articles citing

An application of ARIMA model for predicting total health expenditure in China from 1978-2022

DOI: 10.7189/jogh.10.010803

Journal of Global Health, 2020, 10, 010803.

Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
