

CITATION REPORT

List of articles citing

Translating IL-6 biology into effective treatments

DOI: 10.1038/s41584-020-0419-z

Nature Reviews Rheumatology, 2020, 16, 335-345.

Version: 2024-04-11

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
262	Outlook of IL-6 signaling blockade for COVID-19 pneumonia. 2020 , 40, 24		13
