

CITATION REPORT

List of articles citing

**Air pollutants, economic growth and public health:
implications for sustainable development in OECD countries**

DOI: 10.1007/s11356-020-11212-1

**Environmental Science and Pollution Research, 2021,
28, 12686-12698.**

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
43	The Effect of Business Cycles on Health Expenditure: A Story of Income Inequality in China. <i>Frontiers in Public Health</i> , 2021 , 9, 653480	6	3
42	Spatial Spillover Effect of Government Public Health Spending on Regional Economic Growth during the COVID-19 Pandemic: An Evidence from China. <i>Complexity</i> , 2021 , 2021, 1-10	1.6	2
41	An integrated assessment of the impacts of PM2.5 and black carbon particles on the air quality of a large Brazilian city. <i>Air Quality, Atmosphere and Health</i> , 2021 , 14, 1455-1473	5.6	4
40	Relationships between Renewable Energy and the Prevalence of Morbidity in the Countries of the European Union: A Panel Regression Approach. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	2
39	The criticality of financial development and energy consumption for environmental sustainability in OECD countries: Evidence from dynamic panel analysis. <i>International Journal of Sustainable Development and World Ecology</i> , 1-11	3.8	11
38	Renewable Energy, Economic Growth and Economic Development Nexus: A Bibliometric Analysis. <i>Energies</i> , 2021 , 14, 4578	3.1	6
37	The impact of environment degrading factors and remittances on health expenditure: an asymmetric ARDL and dynamic simulated ARDL approach. <i>Environmental Science and Pollution Research</i> , 2021 , 1	5.1	0
36	Does air pollution prompt corporations to implement green management? Evidence from China. <i>Environmental Science and Pollution Research</i> , 2021 , 1	5.1	4
35	The role of technological innovation in environmental pollution, energy consumption and sustainable economic growth: Evidence from South Asian economies. <i>Energy Strategy Reviews</i> , 2022 , 39, 100745	9.8	31
34	Assessment of the Feasibility of Energy Transformation Processes in European Union Member States. <i>Energies</i> , 2022 , 15, 661	3.1	4
33	Dynamic inference of healthcare expenditure on economic growth in Sub-Saharan Africa: a dynamic heterogenous panel data analysis. <i>Journal of Economic and Administrative Sciences</i> , 2022 , ahead-of-print,	0.9	0
32	The impact of information and communication technology, financial development, and energy consumption on carbon dioxide emission: evidence from the Belt and Road countries.. <i>Environmental Science and Pollution Research</i> , 2022 , 1	5.1	5
31	The Mediating Role of Public Health between Environmental Policy Tools and Economic Development. <i>Energies</i> , 2022 , 15, 835	3.1	0
30	Establishing the relationship between population aging and health care expenditure in India. <i>Journal of Economic and Administrative Sciences</i> , 2022 , ahead-of-print,	0.9	1
29	Nexus between non-renewable energy production, CO emissions, and healthcare spending in OECD economies.. <i>Environmental Science and Pollution Research</i> , 2022 , 1	5.1	3
28	Exploring the Roles of Renewable Energy, Education Spending, and CO2 Emissions towards Health Spending in South Asian Countries. <i>Sustainability</i> , 2022 , 14, 3549	3.6	1
27	Low-Carbon Governance, Fiscal Decentralization and Sulfur Dioxide Emissions: Evidence from a Quasi-Experiment with Chinese Heavy Pollution Enterprises. <i>Sustainability</i> , 2022 , 14, 3220	3.6	0

26	The effect of carbon dioxide emission, GDP per capita and urban population on health expenditure in OECD countries: a panel ARDL approach. <i>International Journal of Environmental Health Research</i> , 1-10	3.6	0
25	Assessing the Influence of Financial Inclusion on Environmental Degradation in the ASEAN Region through the Panel PMG-ARDL Approach. <i>Sustainability</i> , 2022, 14, 7058	3.6	1
24	Economic Boom and Busts Lead to Human Capital Changes? Evidence From Health Expenditure Changes in Emerging Economies. <i>Frontiers in Public Health</i> , 10,	6	
23	Transportation, Environmental Degradation, and Health Dynamics in the United States and China: Evidence From Bootstrap ARDL With a Fourier Function. <i>Frontiers in Public Health</i> , 10,	6	0
22	Government Trust, Environmental Pollution Perception, and Environmental Governance Satisfaction. 2022, 19, 9929		2
21	The Transition to Renewable Energy: A Sustainability Issue?. 2022, 29-72		1
20	Environmental benefits of China's entertainment and media market: implications for sustainability. 1-13		0
19	Does Financial Inclusion Promote Environmental Sustainability: Analyzing the Role of Technological Innovation and Economic Globalization.		0
18	Environmental factors and its influence on human health in BRICS: implications for human development.		0
17	The nexus of financialization and circularity: Evidence from European economies. 0958305X2211349		0
16	The role of financialization in stimulating environmental innovation implementation in the European region.		0
15	Air pollution, health expenditure and economic growth in MINT countries: a trivariate causality test.		0
14	Financial development and renewable energy consumption in Vietnam: evidence from a wavelet approach.		0
13	The impacts of the refugee population, renewable energy consumption, carbon emissions, and economic growth on health expenditure in Turkey: new evidence from Fourier-based analyses.		2
12	TEA-IS: A hybrid DEA-TOPSIS approach for assessing performance and synergy in Chinese health care. 2023, 113916		0
11	Electricity production, government effectiveness eco-innovation, and public health: Novel findings in the context of sustainability policies. 2023, 81, 101507		0
10	Spatial-temporal assessment of air quality in Rome (Italy) based on anemological clustering. 2023, 14, 101670		0
9	Impact of Green Innovation, Sustainable Economic Growth, and Carbon Emission on Public Health: New Evidence of Non-Linear ARDL Estimation. 2023, 15, 2859		0
