

CITATION REPORT

List of articles citing

Spectral analysis of severely overlapping spectra based on newly developed mathematical filtration techniques and ratio spectra manipulations: An application to the concurrent determination of dapoxetine and sildenafil in combined dosage form

DOI: 10.1016/j.saa.2021.119715

Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy, 2021, 255, 119715.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
