

CITATION REPORT

List of articles citing

Factors Influencing Plasma Coproporphyrin-I Concentration as Biomarker of OATP1B Activity in Patients With Rheumatoid Arthritis

DOI: 10.1002/cpt.2375

Clinical Pharmacology and Therapeutics, 2021, 110, 1096-1105

Source: <https://exaly.com/paper-pdf/81952936/citation-report.pdf>

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
4	Physiologically-based pharmacokinetic model-based translation of OATP1B-mediated drug-drug interactions from coproporphyrin I to probe drugs.. <i>Clinical and Translational Science</i> , 2022 ,	4.9	0
3	Clinical implications of altered drug transporter abundance/function and PBPK modeling in specific populations: An ITC perspective.. <i>Clinical Pharmacology and Therapeutics</i> , 2022 ,	6.1	1
2	Changes in the expression of drug-metabolising enzymes and drug transporters in mice with collagen antibody-induced arthritis. 1-9		0
1	Positive correlation between organic anion transporter 1B function indicated by plasma concentration of coproporphyrin-I and blood concentration of cyclosporin A in real-world patients.		0
