

CITATION REPORT

List of articles citing

A New ANFIS-based Hybrid Method in the Design and Fabrication of a High-performance Novel Microstrip Diplexer for Wireless Applications

DOI: 10.1142/s0218126622500505

Journal of Circuits, Systems and Computers, , , 2250050.

Version: 2024-04-10

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2	Designing high-performance microstrip quad-band bandpass filters (for multi-service communication systems): a novel method based on artificial neural networks. <i>Neural Computing and Applications</i> , 1	4.8	1
1	Design and analysis of a compact microstrip lowpassBandpass diplexer with good performance for wireless applications. 1-9		1
