

# CITATION REPORT

List of articles citing

Metabolic phenotyping reveals a reduction in the bioavailability of serotonin and kynurenine pathway metabolites in both the urine and serum of individuals living with Alzheimer's disease

DOI: 10.1186/s13195-020-00741-z

Alzheimer's Research and Therapy, 2021, 13, 20.

**Source:** <https://exaly.com/paper-pdf/82807562/citation-report.pdf>

**Version:** 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
