

Industrial Cyber Physical Systems Supported by Distrib

Studies in Computational Intelligence  
, 47-59

DOI: 10.1007/978-3-319-51100-9\_5

Citation Report

#	ARTICLE	IF	CITATIONS
2	The Most Economical Redundant Assignment. , 2019, , .		8
3	Multi Agent System for Machine Learning Under Uncertainty in Cyber Physical Manufacturing System. Studies in Computational Intelligence, 2020, , 244-257.	0.7	11
4	Requirements Identification for Real-Time Anomaly Detection in Industrie 4.0 Machine Groups: A Structured Literature Review. , 0, , .		4
5	Ubiquitous Manufacturing in the Age of Industry 4.0: A State-of-the-Art Primer. Advances in Science, Technology and Innovation, 2020, , 73-112.	0.2	15
7	AWARENESS OF THE TERMINOLOGY OF THE INDUSTRY 4.0 CONCEPT IN THE CZECH REPUBLIC. , 0, , .		0
