

CITATION REPORT

List of articles citing

Liquid chromatography-high resolution mass spectrometry for the determination of three cannabinoids, two (-)-trans- Δ^9 -tetrahydrocannabinol metabolites, and six amphetamine-type stimulants in human hair

DOI: 10.1016/j.jchromb.2020.122157

Journal of Chromatography B: Analytical Technologies in the Biomedical and Life Sciences, 2020, 1149, 122157.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
