

On the Dynamics of the Wintertime Stratosphere Circulation

Journals of the Atmospheric Sciences

22, 349-360

DOI: [10.1175/1520-0469\(1965\)022<0349:otdotw>2.0.co;2](https://doi.org/10.1175/1520-0469(1965)022<0349:otdotw>2.0.co;2)

Citation Report

#	ARTICLE	IF	CITATIONS
1	On the Dynamics of Long and Ultra-Long Waves in a Baroclinic Zonal Current. Journal of the Meteorological Society of Japan, 1968, 46, 234-249.	1.8	41
2	Periodic Variation of the Winter Stratospheric Circulation and Intermittent Vertical Propagation. Journal of the Meteorological Society of Japan, 1969, 47, 390-402.	1.8	57
3	Energy flux and convergence patterns in the lower and middle stratosphere during the IQSY. Quarterly Journal of the Royal Meteorological Society, 1969, 95, 310-328.	2.7	15
4	On the interaction between the stratosphere and troposphere during the warming of December 1967-january 1968. Quarterly Journal of the Royal Meteorological Society, 1970, 96, 24-31.	2.7	13
5	Eddy transfer processes in the stratosphere during major and â€œminorâ€•breakdowns of the polar night vortex. Journal of Geophysical Research, 1970, 75, 1701-1705.	3.3	5
6	Excitation of Planetary Rossby Waves in the Winter Stratosphere by Periodic Forcing. Journal of the Meteorological Society of Japan, 1971, 49, 439-449.	1.8	38
7	On the Response of Forced Rossby Waves to the Time Change of Zonal Wind and Forcing. Journal of the Meteorological Society of Japan, 1971, 49A, 545-552.	1.8	4
8	The energetics of the lower stratosphere including radiative effects. Quarterly Journal of the Royal Meteorological Society, 1971, 97, 209-237.	2.7	24
9	A study of the energetics of an upper stratospheric warming (1969-1970). Quarterly Journal of the Royal Meteorological Society, 1972, 98, 730-744.	2.7	10
10	Observational Studies of the Ultra-Long Waves in the Atmosphere (I). Journal of the Meteorological Society of Japan, 1973, 51, 209-229.	1.8	6
11	Structure and Behavior of the Aleutian Anticyclone as Revealed by Meteorological Rocket and Satellite Observations. Journal of the Meteorological Society of Japan, 1973, 51, 353-363.	1.8	5
12	Vertical Structure of Quasi-Stationary Planetary Waves in Several Winters. Journal of the Meteorological Society of Japan, 1974, 52, 272-282.	1.8	12
13	Planetary-scale disturbances in the polar winter stratosphere. Quarterly Journal of the Royal Meteorological Society, 1974, 100, 76-108.	2.7	75
14	The annual distribution of atmospheric energy on a planetary scale. Journal of Geophysical Research, 1974, 79, 2149-2159.	3.3	69
15	Observational Studies of the Ultra-Long Waves in the Atmosphere (II). Journal of the Meteorological Society of Japan, 1974, 52, 120-142.	1.8	3
16	Atmospheric Response to the Quasi-Resonant Growth of Forced Planetary Waves. Journal of the Meteorological Society of Japan, 1974, 52, 143-163.	1.8	10
17	Atmospheric Response to the Quasi-Resonant Growth of Forced Planetary Waves. Journal of the Meteorological Society of Japan, 1974, 52, 143-163.	1.8	5
