

CITATION REPORT

List of articles citing

Relation between folate status, a common mutation in methylenetetrahydrofolate reductase, and plasma homocysteine concentrations

DOI: 10.1161/01.CIR.93.1.7
Circulation, 1996, 93, 7-9.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

14	Associations between Two Common Variants C677T and A1298C in the Methylenetetrahydrofolate Reductase Gene and Measures of Folate Metabolism and DNA Stability (Strand Breaks, Misincorporated Uracil, and DNA Methylation Status) in Human Lymphocytes In vivo. 2004 , 13, 1436-1443	28
13	Effect of hyperhomocysteinemia on a murine model of smoke-induced pulmonary emphysema. 2022 , 12,	
12	MTHFR Polymorphism and Folic Acid Supplementation Influence Serum Homocysteine Levels in Psoriatic Patients Treated with Methotrexate. 2022 , 11, 4580	
11	Reduced Steroid Synthesis in the Follicular Fluid of MTHFR 677TT Mutation Carriers: Effects of Increased Folic Acid Administration. 2022 , 82, 1074-1081	0

- 10 Therapeutic approach of glutathione/glutathione peroxidase-4 axis modulation in the light of ferroptosis. **2022**, 69, 839-846
- 9 Folate Antagonists. 1-11
- 8 The association between altitude and serum folate levels in Tibetan adults on the Tibetan plateau. **2022**, 12,
- 7 Target enzymes in serine-glycine-one-carbon metabolic pathway for cancer therapy.
- 6 Hyperhomocysteinemia Increases Vascular Risk in Stroke Patients with Chronic Kidney Disease. **2022**,
- 5 Ischaemic stroke with multi-focal venous and arterial thrombosis due to hyperhomocysteinemia: anabolic androgenic steroid use and MTHFR c.667C>T variant..
- 4 Occurrence of MTHFR C677T gene polymorphism and its association with atherogenic indices in Mexican women from San Luis Potosi, a preliminary study.
- 3 Occurrence of MTHFR C677T gene polymorphism and its association with atherogenic indices in Mexican women from San Luis Potosi, a preliminary study.
- 2 Ischaemic stroke with multi-focal venous and arterial thrombosis due to hyperhomocysteinemia: anabolic androgenic steroid use and MTHFR c.667 C > T variant. A case report. **2023**, 23,
- 1 Protective role of vitamin B12 on acetic acid induced colitis in rats. **2023**, 39, 7-16
