

CITATION REPORT

List of articles citing

Cellular basis for the electrocardiographic J wave

DOI: 10.1161/01.CIR.93.2.372
Circulation, 1996, 93, 372-9.

Source: <https://exaly.com/paper-pdf/86224811/citation-report.pdf>

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
608	What to do in patients with no structural heart disease and sudden arrhythmic death?. 1996 , 78, 69-75		43
607	A prophylactic implantable cardioverter-defibrillator?. 1996 , 78, 128-33		9
606	Evaluation of novel measurement methods for detecting heterogeneous repolarization. 1996 , 29 Suppl, 145-53		12
605	Unique properties of cardiac action potentials recorded with voltage-sensitive dyes. 1996 , 7, 1024-38		179
604	The M Cell. 1997 , 2, 73-76		32
603	Electrophysiology of Myocardial Cells in the Epicardial, Midmyocardial, and Endocardial Layers of the Ventricle. 1997 , 2, 61-72		8
602	Further characterization of the syndrome of right bundle branch block, ST segment elevation, and sudden cardiac death. 1997 , 8, 325-31		188
601	Is the Brugada syndrome a distinct clinical entity?. 1997 , 8, 332-6		34
600	Genetic basis and molecular mechanism for idiopathic ventricular fibrillation. 1998 , 392, 293-6		1455
599	Cytochalasin D as excitation-contraction uncoupler for optically mapping action potentials in wedges of ventricular myocardium. 1998 , 9, 1336-47		85
598	Increased dispersion of repolarization time determined by monophasic action potentials in two patients with familial idiopathic ventricular fibrillation. 1998 , 9, 74-83		29
597	The enigmatic ECG manifestation of Brugada syndrome. 1998 , 9, 109-12		24
596	Familial sudden cardiac death associated with a terminal QRS abnormality on surface 12-lead electrocardiogram in the index case. 1998 , 9, 642-7		75
595	Dynamic changes of 12-lead electrocardiograms in a patient with Brugada syndrome. 1998 , 9, 508-12		131
594	The Brugada syndrome. 1998 , 9, 513-6		138
593	Polymorphic ventricular tachyarrhythmias in the absence of organic heart disease: classification, differential diagnosis, and implications for therapy. 1998 , 41, 17-34		78
592	Cellular basis for QT dispersion. 1998 , 30 Suppl, 168-75		190

591	Comparison of the cellular electrophysiological characteristics of canine left ventricular epicardium, M cells, endocardium and Purkinje fibres. 1998 , 164, 181-90	53
590	A prospective evaluation of the electrocardiographic manifestations of hypothermia. 1999 , 6, 1121-6	73
589	The M cell: its contribution to the ECG and to normal and abnormal electrical function of the heart. 1999 , 10, 1124-52	436
588	Sodium pentobarbital reduces transmural dispersion of repolarization and prevents torsades de Pointes in models of acquired and congenital long QT syndrome. 1999 , 10, 154-64	105
587	The controversial M cell. 1999 , 10, 244-60	126
586	Transient local changes in right ventricular monophasic action potentials due to ajmaline in a patient with Brugada Syndrome. 1999 , 10, 1010-5	19
