

CITATION REPORT

List of articles citing

Effect of Exercise on NAFLD and Its Risk Factors: Comparison of Moderate versus Low Intensity Exercise

DOI: 10.14218/JCTH.2019.00012

Journal of Clinical and Translational Hepatology, 2020,
8, 120-126.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
