

CITATION REPORT

List of articles citing

A self-administered questionnaire for the assessment of severity of symptoms and functional status in carpal tunnel syndrome

DOI: 10.2106/00004623-199311000-00002

Journal of Bone and Joint Surgery - Series A, 1993, 75, 1585-92

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
