

CITATION REPORT

List of articles citing

Physical Activity, Sedentary Behavior, and Diet-Related eHealth and mHealth Research: Bibliometric Analysis

DOI: 10.2196/jmir.8954

Journal of Medical Internet Research, 2018, 20, e122.

Source: <https://exaly.com/paper-pdf/88260241/citation-report.pdf>

Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
106	Observance thérapeutique d'heure du numérique et des objets connectés. 2018 , 12, 502-510		3
105	Strategies to Engage Adolescents in Digital Health Interventions for Obesity Prevention and Management. 2018 , 6,		22
104	Who Uses Action Planning in a Web-Based Computer-Tailored Intervention to Reduce Workplace Sitting and What do Action Plans Look Like? Analyses of the Start to stand Intervention among Flemish Employees. 2019 , 11, 543-561		3
103	Effect of a short message service (SMS) intervention on adherence to a physiotherapist-prescribed home exercise program for people with knee osteoarthritis and obesity: protocol for the ADHERE randomised controlled trial. 2019 , 20, 428		6
102	Use of Wearable Technology and Social Media to Improve Physical Activity and Dietary Behaviors among College Students: A 12-Week Randomized Pilot Study. 2019 , 16,		26
101	Nursing and midwifery research activity in Arab countries from 1950 to 2017. 2019 , 19, 340		7
100	Cardiovascular Disease Prevention in Adolescents: eHealth, Co-Creation, and Advocacy. 2019 , 7,		10
99	The history and future of digital health in the field of behavioral medicine. 2019 , 42, 67-83		55
98	Effectiveness of interventions aimed at improving dietary behaviours among people at higher risk of or with chronic non-communicable diseases: an overview of systematic reviews. 2019 , 73, 9-23		13
97	Research Combining Physical Activity and Sleep: A Bibliometric Analysis. 2020 , 127, 154-181		10
96	Effectiveness of a web-based computer-tailored intervention promoting physical activity for adults from Quebec City: a randomized controlled trial. 2020 , 8, 601-622		1
95	Lipidemic Profile Changes over a Two-Year Intervention Period: Who Benefited Most from the Feel4Diabetes Program?. 2020 , 12,		0
94	Research Synthesis and Thematic Analysis of Twitter Through Bibliometric Analysis. 2020 , 16, 88-109		21
93	Social media trends in dermatology, dermatopathology, and pathology publications: The social construction of medical subdisciplines. 2020 , 47, 601-605		1
92	Lifestyle Changes Observed among Adults Participating in a Family- and Community-Based Intervention for Diabetes Prevention in Europe: The 1 Year Results of the Feel4Diabetes-Study. 2020 , 12,		3
91	A systematic evaluation of digital nutrition promotion websites and apps for supporting parents to influence children's nutrition. 2020 , 17, 17		23
90	[Digital public health-an overview]. 2020 , 63, 137-144		12
