

CITATION REPORT

List of articles citing

Medication Adherence and Technology-Based Interventions for Adolescents With Chronic Health Conditions: A Few Key Considerations

DOI: 10.2196/mhealth.8310

JMIR MHealth and UHealth, 2017, 5, e202.

Source: <https://exaly.com/paper-pdf/88261592/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
65	Association between Participants' Characteristics, Patient-Reported Outcomes, and Clinical Outcomes in Youth with Sickle Cell Disease. <i>BioMed Research International</i> , 2018 , 2018, 8296139	3	19
64	Smartphone Applications for Encouraging Asthma Self-Management in Adolescents: A Systematic Review. <i>International Journal of Environmental Research and Public Health</i> , 2018 , 15,	4.6	30
63	Evaluation of mobile phone applications to support medication adherence and symptom management in oncology patients. <i>Pediatric Blood and Cancer</i> , 2018 , 65, e27278	3	30
62	Use of the FITT framework to understand patients' experiences using a real-time medication monitoring pill bottle linked to a mobile-based HIV self-management app: A qualitative study. <i>International Journal of Medical Informatics</i> , 2019 , 131, 103949	5.3	9
61	Characteristics of Future Models of Integrated Outpatient Care. <i>Healthcare (Switzerland)</i> , 2019 , 7,	3.4	0
60	Computer and mobile technology interventions to promote medication adherence and disease management in people with thalassemia. <i>The Cochrane Library</i> , 2019 , 6, CD012900	5.2	5
59	Enhancing Asthma Patients' Self-Management through Smartphone-Based Application: Design, Usability Evaluation, and Educational Intervention. <i>Applied Clinical Informatics</i> , 2019 , 10, 870-878	3.1	11
58	The Impact of COVID-19 on Pediatric Adherence and Self-Management. <i>Journal of Pediatric Psychology</i> , 2020 , 45, 977-982	3.2	16
57	Development of the NIH Patient-Reported Outcomes Measurement Information System (PROMIS) Medication Adherence Scale (PMAS). <i>Patient Preference and Adherence</i> , 2020 , 14, 971-983	2.4	6
56	Perceptions and experiences of using mobile technology for medication adherence among older adults with coronary heart disease: A qualitative study. <i>Digital Health</i> , 2020 , 6, 2055207620926844	4	8
55	Technology Use for Adolescent Health and Wellness. <i>Pediatrics</i> , 2020 , 145, S186-S194	7.4	44
54	Adherence to Medication During Transition to Adult Services. <i>Paediatric Drugs</i> , 2020 , 22, 501-509	4.2	5
53	Promoting medication adherence from the perspective of adolescent and young adult kidney transplant recipients, parents, and health care professionals: A TAKE-IT TOO study. <i>Pediatric Transplantation</i> , 2020 , 24, e13709	1.8	5
52	Sustained Effects From a School-Based Intervention Pilot Study for Children With Asthma and Anxiety. <i>Journal of School Nursing</i> , 2020 , 1059840520934178	2.1	0
51	Building - A mobile health application to improve adolescent medication adherence - Using a multidisciplinary approach and academic-industry collaboration. <i>Digital Health</i> , 2021 , 7, 20552076211019877	4.8	2
50	Adherence of Mobile App-Based Surveys and Comparison With Traditional Surveys: eCohort Study. <i>Journal of Medical Internet Research</i> , 2021 , 23, e24773	7.6	3
49	The Role of mHealth in Improving Health and Medication Management. <i>Advances in Medical Technologies and Clinical Practice Book Series</i> , 2021 , 32-50	0.3	

48	Access to Technology and Preferences for an mHealth Intervention to Promote Medication Adherence in Pediatric Acute Lymphoblastic Leukemia: Approach Leveraging Behavior Change Techniques. <i>Journal of Medical Internet Research</i> , 2021 , 23, e24893	7.6	7
