Version: 2024-04-10

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2349	The role of electrostatic plasma oscillations in electron scattering in the Earth's outer magnetosphere. <i>Journal of Geophysical Research</i> , 1966 , 71, 2715-2727		12
2348	Temporal variations of electron intensities at low altitudes in the outer radiation zone as observed with satellite Injun 3. <i>Journal of Geophysical Research</i> , 1966 , 71, 5643-5663		63
2347	Micropulsations and the outer radiation zone. <i>Journal of Geophysical Research</i> , 1966 , 71, 2185-2199		130
2346	U.S.A. National Committee Report, Fifteenth URSI General Assembly, Munich, September 1966: Commission 4, Magnetospheric Radio; Progress in Magnetospheric Radio. 1966 , 1, 1363-1370		
2345	Amplification of electromagnetic disturbances in the non-uniform ionosphere. 1966 , 14, 1077-1083		
2344	ROCKET OBSERVATIONS OF ELECTRON PITCH-ANGLE DISTRIBUTIONS DURING AURORAL SUBSTORMS. 1967 , 45, 1755-1769		14
2343	Resonantly unstable off-angle hydromagnetic waves. 1967 , 1, 81-104		37
2342	Cyclotron-resonance amplification of VLF and ULF whistlers. <i>Journal of Geophysical Research</i> , 1967 , 72, 39		145
2341	Evening micropulsation events with a rising midfrequency characteristic. <i>Journal of Geophysical Research</i> , 1967 , 72, 399		36
2340	Quasi-trapped VLF propagation in the outer magnetosphere. <i>Journal of Geophysical Research</i> , 1967 , 72, 857-870		112
2339	Unstable growth of unducted whistlers propagating at an angle to the geomagnetic field. <i>Journal of Geophysical Research</i> , 1967 , 72, 871-878		87
2338	A plasma instability associated with thermal anisotropies in the solar wind. <i>Journal of Geophysical Research</i> , 1967 , 72, 993-1005		63
2337	Theoretical simulation of micropulsations. <i>Journal of Geophysical Research</i> , 1967 , 72, 2843-2856		30
2336	Vela 3 magnetograms at 18 RE structure and pulsations in the magnetosheath. <i>Journal of Geophysical Research</i> , 1967 , 72, 3855-3876		23
2335	Space and time variations in outer-belt electron spectra. <i>Journal of Geophysical Research</i> , 1967 , 72, 4590-4594		10
2334	A theory of discrete VLF emissions from the magnetosphere. <i>Journal of Geophysical Research</i> , 1967 , 72, 4773-4790		381
2333	Bulk motion of the magnetosphere. <i>Journal of Geophysical Research</i> , 1967 , 72, 5193-5211		305

2332	Changes in Van Allen radiation associated with polar substorms. <i>Journal of Geophysical Research</i> , 1967 , 72, 5919-5931	76
2331	Higher-order ring currents and particle energy storage in the magnetosphere. <i>Journal of Geophysical Research</i> , 1967 , 72, 6039-6049	57
2330	Particles and fields: Significant achievements. 1967 , 5, 411	5
2329	Geomagnetic micropulsations and diagnostics of the magnetosphere. 1967 , 7, 689-768	130
2328	Auroral Zone Cosmic Noise Absorption Pulsations. 1967 , 214, 1321-1322	7
2327	Possible consequences of the asymmetric development of the ring current belt. 1967 , 15, 835-862	40
2326	Resonant interactions between energetic trapped particles and a transverse electromagnetic wave. 1967 , 15, 557-571	3
2325	The general pattern of auroral particle precipitation. 1967 , 15, 301-329	176
2324	The polar substorm and electron islands in the Earth's magnetic tail. 1968 , 16, 1441-1451	14
2323	Aurorae. 1968 , 16, 47-59	18
2322	Large-scale electric field in the magnetosphere. 1968 , 8, 3-31	84
2321	Pegasus 1: Observations of the temporal behavior of the inner zone electrons, 1965-1966. <i>Journal of Geophysical Research</i> , 1968 , 73, 1019-1033	5
2320	Observations of VLF hiss at very low L values. <i>Journal of Geophysical Research</i> , 1968 , 73, 1096-1101	15
2319	The observations of a near monoenergetic flux of auroral electrons. <i>Journal of Geophysical Research</i> , 1968 , 73, 2315-2323	111
2318	Microburst phenomena: 3. An association between microbursts and VLF chorus. <i>Journal of Geophysical Research</i> , 1968 , 73, 2355-2362	109
2317	An empirical evaluation of radial diffusion coefficients for electrons of 50-100 keV from L = 4 to L = 7. <i>Journal of Geophysical Research</i> , 1968 , 73, 2959-2965	24
2316	Electron precipitation in the radiation belts. <i>Journal of Geophysical Research</i> , 1968 , 73, 4167-4184	38
2315	Observations of trapped electrons at low and high altitudes. <i>Journal of Geophysical Research</i> , 1968 , 73, 5673-5696	108

2314	Thermal anisotropies and electromagnetic instabilities in the solar wind. <i>Journal of Geophysical Research</i> , 1968 , 73, 6149-6165	111
2313	Plasma-wave instabilities in the ionosphere over the aurora. <i>Journal of Geophysical Research</i> , 1968 , 73, 6631-6648	58
2312	Bounce resonant scattering of particles trapped in the Earth's magnetic field. <i>Journal of Geophysical Research</i> , 1968 , 73, 7361-7376	68
2311	A new interpretation of VLF chorus. <i>Journal of Geophysical Research</i> , 1968 , 73, 7447-7456	25
2310	A mechanism for VLF emissions. <i>Journal of Geophysical Research</i> , 1968 , 73, 7457-7471	34
2309	Occurrences of Pc 1 pulsations in the course of magnetospheric substorms. <i>Journal of Geophysical Research</i> , 1968 , 73, 7491-7501	13
2308	Some quantitative aspects of electron precipitation in and near the auroral zone. 1968 , 6, 289	84
2307	Variations of auroral emissions with time, magnetic activity and the solar cycle. 1968 , 30, 1921-1942	67
2306	Auroral motions observed with riometers: latitudinal movements and a median global pattern. 1968 , 30, 1461-1470	26
2305	Pitch angle diffusion of low energy protons due to gyroresonant interaction with hydromagnetic waves. 1968 , 30, 1313-1330	101
2304	. 1968 , 15, 562-565	5
2303	Diffusion Processes Influenced by Conjugate-Point Wave Phenomena. 1968 , 3, 740-744	100
2302	On gyroresonance. 1968 , 2, 59-64	9
2301	Calculated dose rates in Jupiter's Van Allen belts. 1969 , 7, 2305-2311	4
2300	Characteristics of the solar wind near the orbit of Jupiter. 1969 , 17, 595-608	18
2299	Bounce resonant interaction between pulsations and trapped particles. 1969 , 17, 349-361	232
2298	Satellite evidence for the generation of VLF emissions at medium latitude by the transverse resonance instability. 1969 , 17, 363-374	26
2297	Growth of a packet of finite amplitude very-low-frequency waves, with special reference to the magnetosphere. 1969 , 17, 13-30	15

2296	Cyclotron amplification of geomagnetic micropulsations Pc1 in the magnetosphere. 1969 , 17, 2009-2016	10
2295	Pc 1 micropulsation activity and magnetospheric amplification of 0.2- to 5.0-Hz hydromagnetic waves. <i>Journal of Geophysical Research</i> , 1969 , 74, 205-224	69
2294	OGO 3 observations of ELF noise in the magnetosphere: 1. Spatial extent and frequency of occurrence. <i>Journal of Geophysical Research</i> , 1969 , 74, 755-777	200
2293	VLF emissions during magnetic storms and their association with 40-keV electrons. <i>Journal of Geophysical Research</i> , 1969 , 74, 1144-1157	7
2292	Morphology of outer radiation zone electron (E > 35 keV) acceleration mechanisms. <i>Journal of Geophysical Research</i> , 1969 , 74, 1749-1758	20
2291	Convection electric fields and the diffusion of trapped magnetospheric radiation. <i>Journal of Geophysical Research</i> , 1969 , 74, 2169-2181	70
2290	Banded chorus: A new type of VLF radiation observed in the magnetosphere by OGO 1 and OGO 3. <i>Journal of Geophysical Research</i> , 1969 , 74, 3002-3010	242
2289	Magnetic emissions in the magnetosheath at frequencies near 100 Hz. <i>Journal of Geophysical Research</i> , 1969 , 74, 3027-3036	70
2288	Transverse wave propagation and instabilities within the magnetosphere. <i>Journal of Geophysical Research</i> , 1969 , 74, 3993-4002	3
2287	Simultaneous observations of 5- to 15-second period modulated energetic electron fluxes at the synchronous altitude and the auroral zone. <i>Journal of Geophysical Research</i> , 1969 , 74, 4003-4017	34
2286	Relationship between the flux magnitude and pitch-angle distribution for post-substorm auroral electrons. <i>Journal of Geophysical Research</i> , 1969 , 74, 4018-4024	6
2285	Initial observations of VLF electric and magnetic fields with the Injun 5 satellite. <i>Journal of Geophysical Research</i> , 1969 , 74, 4631-4648	78
2284	Intensity correlations and substorm electron drift effects in the outer radiation belt measured with the OGO 3 and ATS 1 satellites. <i>Journal of Geophysical Research</i> , 1969 , 74, 5005-5018	91
2283	Particle substorms observed at the geostationary orbit. <i>Journal of Geophysical Research</i> , 1969 , 74, 5019-5028	141
2282	VLF measurements of the Poynting Flux along the geomagnetic field with the Injun 5 satellite. <i>Journal of Geophysical Research</i> , 1969 , 74, 5675-5687	79
2281	Whistler-mode emissions on the OGO 1 satellite. <i>Journal of Geophysical Research</i> , 1969 , 74, 6371-6385	138
2280	Auroras and polar substorms: Observations and theory. 1969 , 7, 129	30
2279	Main mechanisms in the formation of the Earth's radiation belts. 1969 , 7, 219	89

2278	Particle fluxes in the outer geomagnetic field. 1969 , 7, 257	32
2277	Low-frequency waves in the magnetosphere. 1969 , 7, 281	92
2276	Pitch-angle diffusion of electrons in the magnetosphere. 1969 , 7, 305	112
2275	Consequences of a magnetospheric plasma. 1969 , 7, 379	353
2274	Particles and fields: Significant achievements, 2. 1969 , 7, 799	3
2273	Commission 4: Progress in Magnetospheric Radio. 1969 , 4, 623-634	
2272	OGO Search Coil Magnetometer Experiments. 1969 , 7, 61-74	45
2271	Design of a Long-Life Reliable Nuclear Experiment for Space Flight. 1969 , 7, 74-77	2
2270	The magnetospheric reflection of whistlers. 1970 , 18, 1753-1767	38
2269	Fokker-planck equation for pitch angle diffusion in spherical coordinates. 1970 , 18, 123-124	4
2268	Redistribution of trapped 55-Mev protons by Starfish Nuclear Explosion. <i>Journal of Geophysical Research</i> , 1970 , 75, 57-68	1
2267	Stability analysis of whistler amplification. <i>Journal of Geophysical Research</i> , 1970 , 75, 85-96	27
2266	OGO 3 observations of ELF noise in the magnetosphere: 2. The nature of the equatorial noise. <i>Journal of Geophysical Research</i> , 1970 , 75, 755-768	224
2265	Electron precipitation pulsations. <i>Journal of Geophysical Research</i> , 1970 , 75, 1279-1289	227
2264	Low-frequency drift instabilities of the ring current belt. <i>Journal of Geophysical Research</i> , 1970 , 75, 3789-3801	51
2263	The acceleration and precipitation of Van Allen outer zone energetic electrons. <i>Journal of Geophysical Research</i> , 1970 , 75, 3802-3816	54
2262	Turbulent loss of ring current protons. <i>Journal of Geophysical Research</i> , 1970 , 75, 4699-4709	440
2261	Auroral arcs: Result of the interaction of a dynamic magnetosphere with the ionosphere. <i>Journal of Geophysical Research</i> , 1970 , 75, 4746-4755	205
