

News from the International Bureau of Weights and Me

Metrologia

3, 23-25

DOI: 10.1088/0026-1394/3/1/005

Citation Report

#	ARTICLE	IF	CITATIONS
1	News from the International Bureau of Weights and Measures. Metrologia, 1968, 4, 41-45.	1.2	54
2	Progress and feasibility for a unified standard for frequency, time, and length. Proceedings of the IEEE, 1972, 60, 623-625.	21.3	7
3	To simulate blackbody radiation frequency shift in cesium fountain frequency standard with CO/sub 2/ laser. IEEE Transactions on Ultrasonics, Ferroelectrics, and Frequency Control, 2006, 53, 1685-1688.	3.0	2
4	Real-time synchronization feedbacks for single-atom frequency standards: V - and Λ-structure systems. , 2010, , .		1
5	Aâ€“Z of Scientific and Informal Measures. Science Networks Historical Studies, 2018, , 33-238.	0.2	0
7	Microwave Frequency Standards Using New Physics. , 2015, , 191-343.		0
