Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
4	La frecuencia cardiaca nondipper durante la monitorizaci3n ambulatoria de la presi3n arterial mejora la estratificaci3n del riesgo cardiovascular. <i>Revista Espanola De Cardiologia</i> , 2022 ,	1.5	
3	Consideration of nondipping heart rate during ambulatory blood pressure monitoring to improve cardiovascular risk assessment. Response.. <i>Revista Espanola De Cardiologia (English Ed)</i> , 2022 ,	0.7	
2	La frecuencia cardiaca nondipper durante la monitorizaci3n ambulatoria de la presi3n arterial mejora la estratificaci3n del riesgo cardiovascular. Respuesta. <i>Revista Espanola De Cardiologia</i> , 2022 , 75, 356	1.5
