

CITATION REPORT

List of articles citing

The structure of turbulent boundary layers

DOI: 10.1017/s0022112067001740

Journal of Fluid Mechanics, 1967, 30, 741-773.

Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
