

# CITATION REPORT

List of articles citing

Precise representation of volume properties of water at one atmosphere

DOI: 10.1021/je60032a018

Journal of Chemical & Engineering Data, 1967, 12, 66-69.

**Source:** <https://exaly.com/paper-pdf/9234624/citation-report.pdf>

**Version:** 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
