Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2319	A model for the boundary condition of a porous material. Part 1. *Journal of Fluid Mechanics*, **1971**, 49, 319-326	3.7	260
2318	A model for the boundary condition of a porous material. Part 2. *Journal of Fluid Mechanics*, **1971**, 49, 327-336	3.7	160
2317	On the Boundary Condition at the Surface of a Porous Medium. **1971**, 50, 93-101		758
2316	Flow about a porous-surfaced rotating disk. **1971**, 14, 993-996		46
2315	Discussion: "Effect of Velocity Slip on Porous-Walled Squeeze Films" (Sparrow, E. M., Beavers, G. S., and Hwang, I. T., 1972, ASME J. Lubr. Technol., 94, pp. 260–264). **1972**, 94, 264-265		
2314	Incompressible Turbulent Flow in a Permeable-Walled Duct. **1972**, 94, 314-319		8
2313	Discussion: "Incompressible Turbulent Flow in a Permeable-Walled Duct" (Sparrow, E. M., Jonsson, V. K., Beavers, G. S., and Owen, R. G., 1972, ASME J. Basic Eng., 94, pp. 314–319). **1972**, 94, 319-319		
2312	Effect of Velocity Slip on Porous-Walled Squeeze Films. **1972**, 94, 260-264		63
2311	Effect of velocity-slip on the squeeze film between porous reactangular plates. **1972**, 20, 67-71		27
2310	Some aspects of slip-flow in porous bearings. **1972**, 19, 123-129		17
2309	Vectored injection into isobaric laminar boundary layer flows. **1972**, 5, 201-203		4
2308	Creeping flow relative to permeable spheres. **1973**, 28, 1865-1874		290
2307	Effect of slip-flow on pressure distribution in narrow porous bearings. **1973**, 25, 365-372		4
2306	Characteristics of partial porous journal bearings of finite length considering curvature and slip velocity. **1973**, 26, 355-367		11
2305	Thin-Film Lubrication Theory for Newtonian Fluids With Surfaces Possessing Striated Roughness or Grooving. **1973**, 95, 484-489		80
2304	Low Reynolds number flow past a porous spherical shell. **1973**, 73, 231-238		194
2303	Flow of Viscous Fluid at Small Reynolds Numbers past a Porous Body. **1973**, 34, 814-820		22

2302	Effect of Slip-Flow in Narrow Porous Bearings. **1973**, 95, 518-523	32
2301	Effect of bulk-reacting liners on wave propagation in ducts. **1973**,	1
2300	Hydrodynamic Porous Journal Bearings. Part I Finite Full Bearings. **1974**, 96, 346-353	28
2299	Analysis of Narrow Porous Journal Bearing Using Beavers-Joseph Criterion of Velocity Slip. **1974**, 41, 348-354	50
2298	Widerstand einer porösen Kugel in schleichender Strömung. **1974**, 54, 745-745	
2297	On the Flow of Immiscible Incompressible Fluids Between Naturally Permeable Walls. **1974**, 54, 817-819	3
2296	Effect of velocity slip on porous-walled squeeze films. **1974**, 29, 363-372	17
2295	A hydrodynamic model of a permeable tubule. **1974**, 44, 287-303	27
2294	Slow flow past a heterogeneous porous sphere. **1974**, 80, 174-183	4
2293	Practical significance of brinkman's extension of darcy's law: Coupled parallel flows within a channel and a bounding porous medium. **1974**, 52, 475-478	382
2292	On boundary conditions for fluid flow in porous media. **1975**, 13, 923-940	93
2291	Hartmann flow over a permeable bed. **1975**, 13, 1-24	28
2290	On the steady flow between a rotating and a stationary naturally permeable disc. **1975**, 13, 869-879	9
2289	Effect of axial pinch on the porous walled squeeze film with velocity slip. **1975**, 31, 381-389	5
2288	Effect of magnetic field and velocity slip on porous-walled rectangular squeeze films. **1975**, 31, 52-66	3
2287	On Two-Dimensional Flow of Power Law Fluids through Ducts with Naturally Permeable Walls. **1975**, 55, 475-478	1
2286	Vectored Injection into Laminar Boundary Layers with Heat Transfer. **1975**, 13, 616-622	20
2285	Laminar flow behavior under slip boundary conditions. **1975**, 18, 1	6

2284	Transient Boundary Layers Between Porous Plates. **1976**, 43, 555-558		2
2283	Flow of viscous stratified fluid of variable viscosity past a porous bed. **1976**, 83, 145-155		2
2282	The theory of an incompressible solid-fluid mixture. **1976**, 62, 131-147		93
2281	The effect of the thickness of the porous material on the parallel plate channel flow when the walls are provided with non-erodible porous lining. **1976**, 32, 607-617		5
2280	Linear shear flow past a porous particle. **1976**, 32, 313-325		17
2279	Low Reynolds number flow past a heterogeneous porous sphere using matched asymptotic technique. **1976**, 32, 61-72		8
2278	Forces on a porous sphere spinning in a fluid flow. **1976**, 16, 99-103		
2277	Effect of velocity slip in axially undefined porous bearings. **1976**, 38, 245-263		8
2276	Effect of velocity slip on the squeeze film between rotating porous annular discs. **1976**, 38, 73-85		10
2275	Effects of grazing flow on the steady-state flow resistance and acoustic impedance of thin porous-faced liners. **1977**,		3
2274	Comments on Channel and tube flows with surface mass transfer and velocity slip**1977**, 20, 1380		4
2273	Onset of convection in a fluid layer overlying a layer of a porous medium. *Journal of Fluid Mechanics* , **1977**, 81, 513	3.7	131
2272	Axially undefined porous journal bearings considering cavitation and using the Beavers-Joseph criterion of velocity slip. **1977**, 41, 157-168		8
2271	Temperature distribution in Couette flow past a permeable bed. **1977**, 86, 537-547		7
2270	Heat transfer for flow past permeable bed. **1977**, 86, 557-561		1
2269	Travelling waves on the surface of a falling liquid film past a permeable bed. **1977**, 43, 227-235		
2268	Two-phase flow through fractures in porous media. **1977**, 55, 471-472		3
2267	Effect of velocity slip on squeeze films in porous bearings. **1978**, 51, 39-47		1

2266	A review of porous squeeze films. **1978**, 47, 371-385	32
2265	Free and forced convection flow in a rotating channel bounded below by a permeable bed. **1978**, 87, 147-160	36
2264	Effect of buoyancy on the free surface flow past a permeable bed. **1978**, 11, 265-275	6
2263	Comments on "Magnetohydrodynamic gravity-capillary waves in a liquid film" **1978**, 21, 867	
2262	Viscous damping of gravity waves over a permeable bed. **1978**, 1, 497-507	
2261	Constitutive equations for flow of an incompressible viscous fluid through a porous medium. **1978**, 36, 255-267	45
2260	Influence of slip velocity at a membrane surface on ultrafiltration performance" Channel flow system. **1979**, 22, 721-729	54
2259	A model for the lubrication mechanism in knee joint replacements. **1979**, 52, 275-284	12
2258	Comments on the limitation of the Reynolds equation for porous thrust bearings. **1979**, 53, 377-379	2
2257	A polar model for synovial fluid with reference to human joints. **1979**, 21, 161-169	21
2256	Analytical studies of temperature and inertia on the performance of hydrostatic porous thrust bearing. **1979**, 35, 21-36	2
2255	On the analogy in slip flows". **1979**, 35, 37-41	
2254	Effect of slip on porous-walled squeeze films in the presence of a transverse magnetic field. **1979**, 34, 393-411	12
2253	Oscillatory flow past a porous bed. **1979**, 34, 205-213	5
2252	Flow in a horizontal circular cylinder bounded by a porous medium. **1979**, 34, 251-255	3
2251	Effect of porous lining on the flow between two concentric rotating cylinders. **1979**, 88, 163-167	1
2250	The Hall effects on hydromagnetic flow over a permeable bed. **1979**, 46, 137-152	
2249	The generalization of Darcy's Law for nonuniform flows. **1979**, 15, 1-7	50

2248	Centrifugal Effects in Hydrostatic Porous Thrust Bearing. **1979**, 101, 381-385	17
2247	The Validity of Some Approximate Solutions to Reynolds Equation. **1979**, 101, 385-386	
2246	Twisted-Pore Effect on Fluid Flow, Solid Deformation and Stress in a Poro-Elastic Cylinder. **1979**, 46, 784-788	
2245	Behavior of Thermal Effects and Velocity-Slip on Performance of Externally Pressurized Porous Incompressible Gas Thrust Bearing. **1979**, 46, 465-468	3
2244	Velocity and dispersion in porous media. **1980**, 18, 921-929	12
2243	Mass transfer with a chemical reaction of the first order: Analytical solutions. **1980**, 19, 19-37	26
2242	A theory of capillary rise of a liquid in a vertical cylindrical tube and in a parallel-plate channel. **1980**, 73, 136-151	71
2241	Effect of velocity slip in an externally pressurized porous circular thrust bearing. **1980**, 63, 239-244	3
2240	Porous metal bearings □A critical review. **1980**, 63, 271-287	15
2239	Effect of slip flow in aerostatic porous rectangular thrust bearings. **1980**, 61, 77-86	5
2238	Analysis of two-lobe porous hydrodynamic journal bearings. **1980**, 64, 339-353	14
2237	The hydromagnetic squeeze film between porous circular disks with velocity slip. **1980**, 58, 275-281	12
2236	Comments on □xternally pressurized porous thrust bearings□**1980**, 58, 393-395	1
2235	Generalized Reynolds equation for porous boundaries. **1980**, 59, 345-354	1
2234	Investigation of the relations between the permeability and the service life of porous self-lubricated bearings. **1980**, 58, 1-14	5
2233	Generalized reynolds equation with slip at bearing surfaces: Multiple-layer lubrication theory. **1980**, 60, 253-268	13
2232	A Slip-velocity Hypothesis Applied to Hydraulically Smooth Wind Flow Over a Snow cover. **1980**, 26, 447-452	
2231	A Slip-velocity Hypothesis Applied to Hydraulically Smooth Wind Flow Over a Snow cover. **1980**, 26, 447-452	3

2230	The ascent of sap in plants. **1981**, 37, 181-229	187
