

# CITATION REPORT

List of articles citing

Application of a radioimmunoassay for angiotensin I to the physiologic measurements of plasma renin activity in normal human subjects

DOI: 10.1210/jcem-29-10-1349

Journal of Clinical Endocrinology and Metabolism,  
1969, 29, 1349-55.

**Source:** <https://exaly.com/paper-pdf/9799795/citation-report.pdf>

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
